

REMINDER: Security Warning - URL Spoofing Phishing Scheme

April 27, 2020

To all UP Users:

Please be reminded not to click on ANY URL from UNSOLICITED email, even from trusted sources, as there are reports about phishing attempts which manipulate the URL and allow malicious apps to gain access to users' data.

Kindly also be reminded to be careful in clicking Zoom meeting/webinar URLs as malicious actors could be creating similar-looking URLs to attack devices. For the latest updates about Zoom's security, you may refer here: <https://zoom.us/docs/en-us/privacy-and-security.html>

Please continue to be vigilant of suspicious activities online. Should you encounter these, immediately inform our Helpdesk through email at helpdesk@up.edu.ph

For your information and guidance.
