

# SAIS USER INTERFACE NAVIGATION

Quick Guide v1.1

# HOMEPAGE CONTROLS

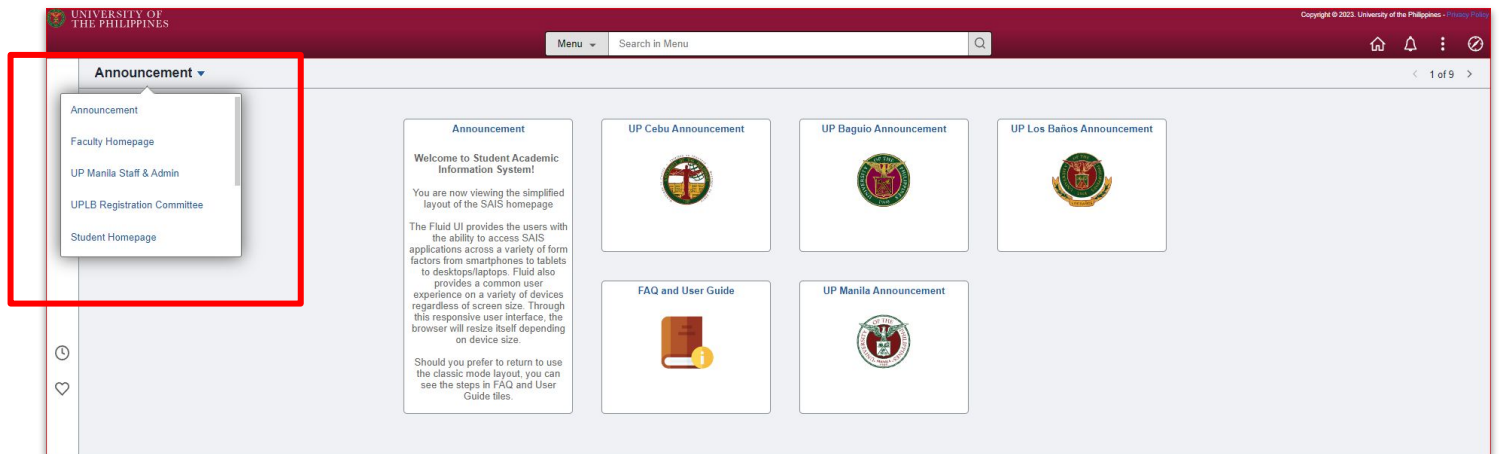

## HOMEPAGE CONTROLS

	Definition
Homepage Indicator 	If a user has multiple homepages, the homepage indicator shows the total number of available homepages.  Note: The homepage indicator is not a navigational control. Clicking on a circle will not display the homepage it represents.
Home 	Select to return to the primary SAIS Homepage.
Notifications 	Select to view actions and alerts in the notifications window.
Action List 	Select to see a list of available actions for the current page.  The Sign Out button is found under this menu and is always available for all pages.
Navigation Bar 	Select to use the Navigation Bar (NavBar).  The NavBar provides handy navigation options such as Recent Places, My Favorites, Navigator (which is used to navigate to other pages), and the Classic Home.  Users can also add and remove options in the NavBar using the personalization function.
Favorites 	On the left side of the user interface.  Shortcut to your assigned favorite pages.
Recently Visited 	On the left side of the user interface.  Shortcut to your assigned recently visited pages.

# USER INTERFACE

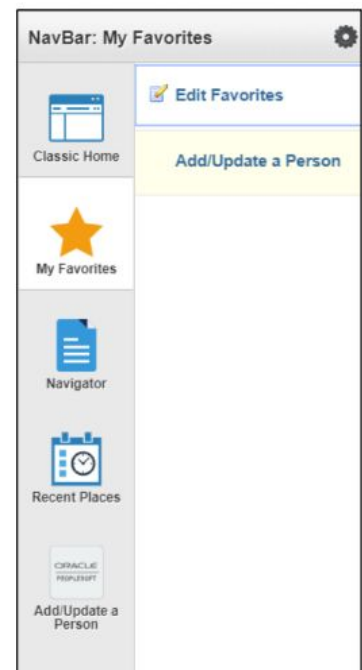

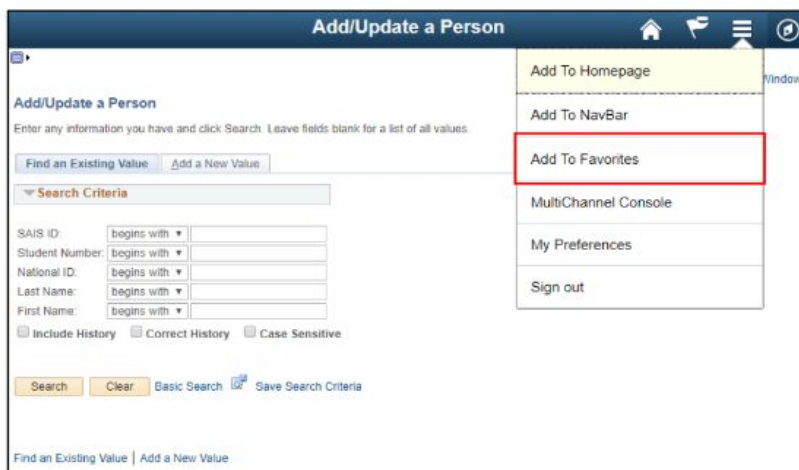

The top left portion of the Homepage is the Header (Announcement, Student Homepage, etc.).

Clicking on the Homepage drop-down menu on the Header will display all available homepages.

## MY FAVORITES

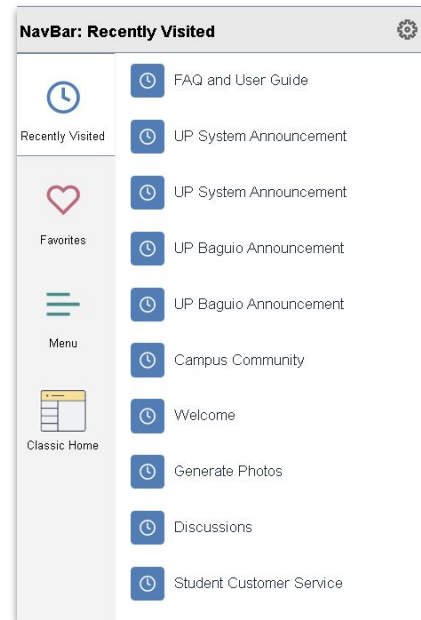

Selecting the My Favorites button in the NavBar will display the pages added by the user to his/her favorites. Pages can be added to the user's favorites by selecting Add To Favorites under the Actions List.

# USER INTERFACE

## RECENT PLACES

Selecting the Recent Places button in the NavBar will display the most recent pages the user has visited.

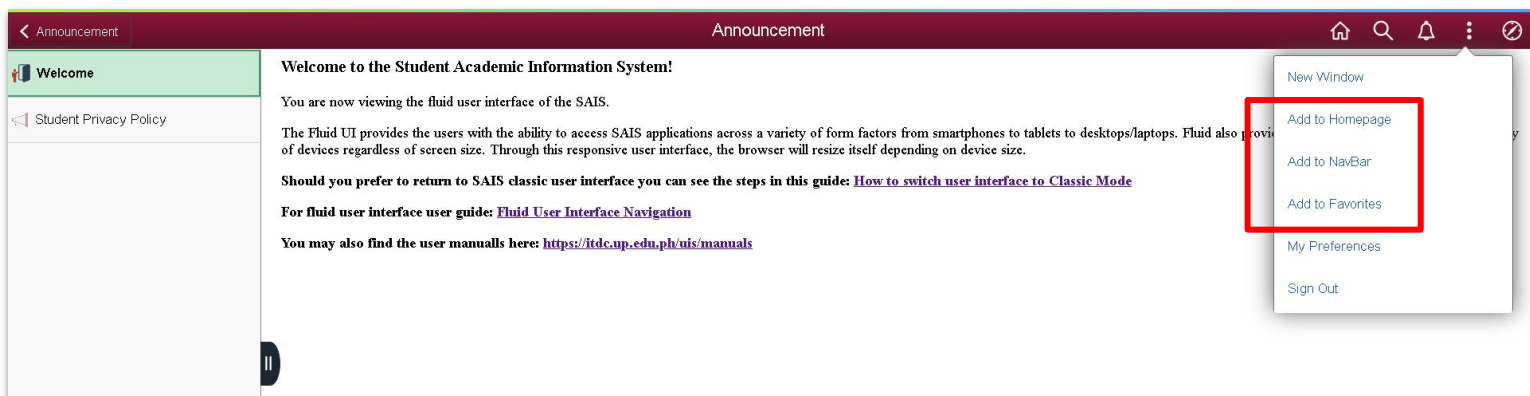

## ADDING PAGE TO THE HOMEPAGE, NAVBAR, and FAVORITES

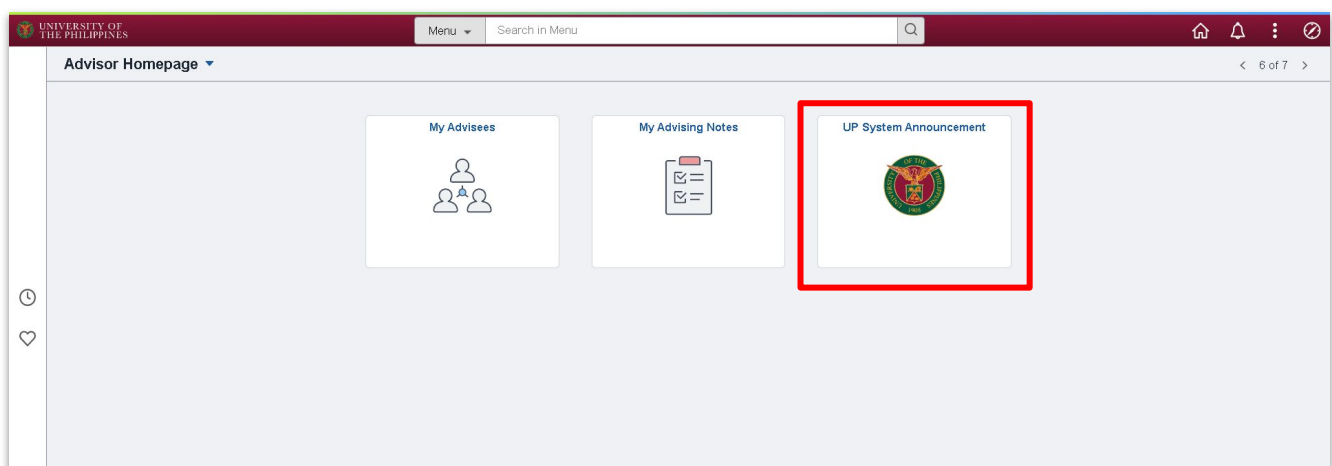

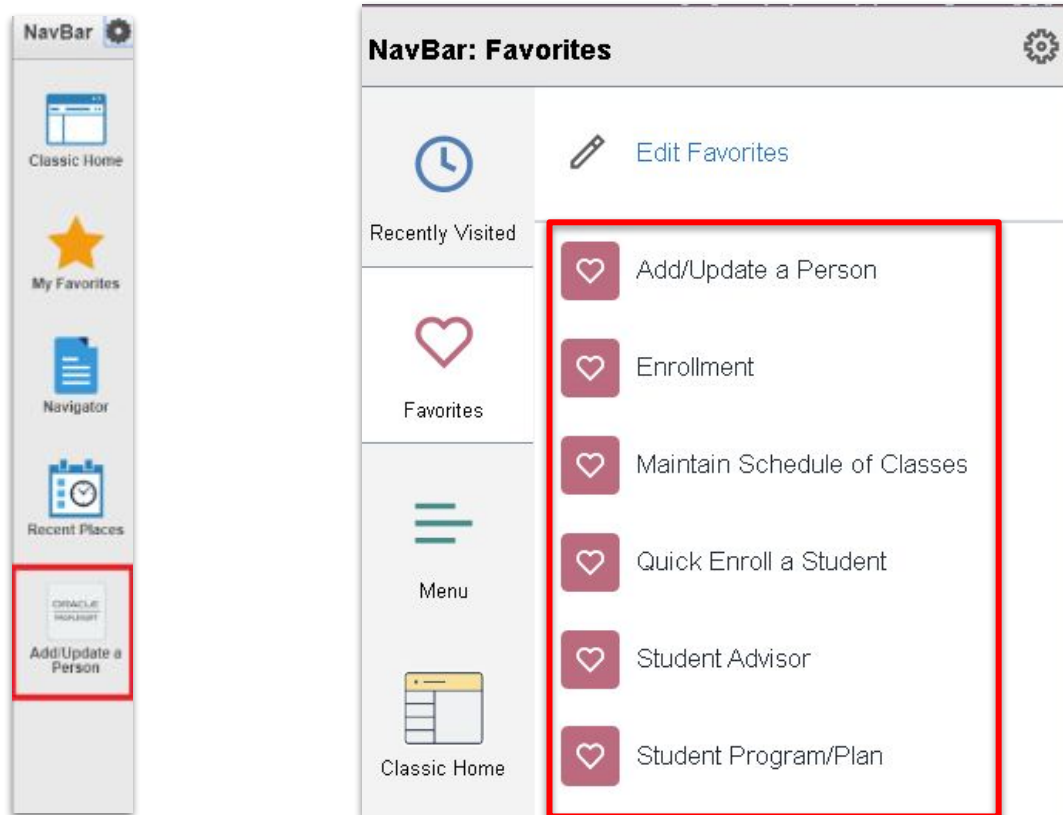

Navigate to the desired page.

Click the Action List button at the upper right corner of the page.

Click the Add to Homepage, Favorites or NavBar option. See the image below.
